

Recruiting Participants for a Research Study Team Trestle

Who is this study for?

We are recruiting parents/guardians of as well as youth who:

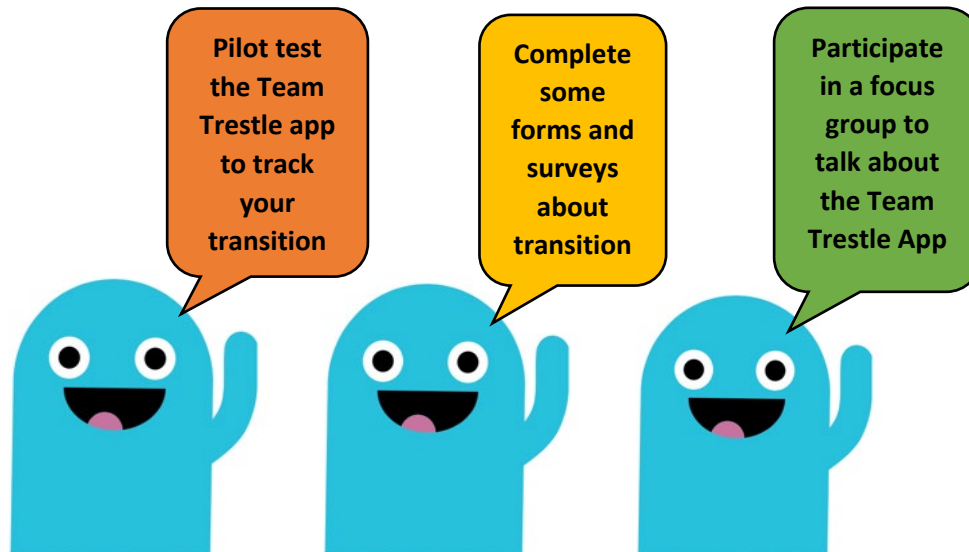

- Are 13-29 years old
- Have an ASD diagnosis or classification

Why?

- The goal of this research study is to learn more about Team Trestle, an application for transition planning and coordination for youth on the autism spectrum, and how the Team Trestle app can help with this transition.

What will be expected of the participant?

- You may be asked to complete the tasks below—not all participants will complete all the tasks. In exchange, you will receive a **\$35.00** gift card upon completion of all tasks **and/or** a **\$20.00** upon focus group participation if selected to participate.

Where?

- We're offering virtual participation options (i.e. Zoom, phone call, email, text, etc.)

How?

- We offer accommodations such as support person present, scheduled reminders, choice in format of the materials, etc.

If you are interested, go to our **Interest Form** at <https://tinyurl.com/TrestleApp> and sign-up! If you have any questions or want to learn more, please contact sodi@drexel.edu or Project PI Dr. Elizabeth McGhee-Hassrick at emh347@drexel.edu.
